

Planning pour le project

Day 1

- I created the GitHub repo.
- I created the files.
- I started linking the pages together.

Day 2

- I finished linking the pages.
- I moved the content to the right page.
- I wrote a different title and description for each page.

Day 3

- I copied the head and the footer to the pages.
- I added a 4th link for Contact in the menu.

Day 4

- I finished the Contact page.
- I styled the form so it matches the rest of the site.
- I checked that every link works on every page.
